

How to find a job

Important: The Swiss population has a very high educational status – therefore certificates are important / always requested. Every proof, every evidence of your qualification and ability counts! (if you don't have your documents / certificates with you, show Instagram profiles, linked in profiles etc.)

Good job opportunities:

- Gastronomy (restaurants, bars): they always look for people.
- Caretaking (Elderly care, hospitals): there are many jobs. In most cases, you need to speak German and/or have a degree. But: often, employers in these sectors are willing to pay for your training /education.
